Remember when you used to listen to an entire album? Classic Albums Live does. They recreate the greatest albums from the 60s and 70s live on stage, note for note – cut for cut.

**Classic Albums Live** will be bringing the iconic **Tom Petty and the Heartbreakers** album to life with **Classic Albums Live Presents: Damn The Torpedoes**, February 27 at the Burton Cummings Theatre.

“It’s been 40 years since *Damn The Torpedoes* was released,” says Classic Albums Live founder, Craig Martin, “It was a time when punk, disco, and a new waver were all exploding. But Ol’ Tom stayed the course and wrote a perfect rock album.”
